Survey to Gather Quantitative Data: Combating School Harassment

---

Objective:
The objective of this survey is to gather quantitative data to better understand the perspectives, experiences, and awareness of students, parents, and educators about school harassment. This data will be used to identify key trends and develop strategies to combat bullying and harassment more effectively.

Hypotheses:

1. Most students are aware of school harassment programs but do not engage with them.
2. Digital platforms are the preferred method for students to report harassment.
3. Educators believe they need more resources and training to deal with harassment effectively.

Main Topics for the Survey:

1. **Awareness of School Harassment Programs**
2. **Methods of Reporting Harassment**
3. **Perceived Effectiveness of Current Initiatives**
4. **Experience with Harassment in School**
5. **Availability of Support Resources**

Survey Questions:

Introduction:
